

# HanPHI

## Client Program Course

---

### COURSE DESCRIPTION

This course teaches you how to use HanPHI client programs to access equipment conditions and early warning information. We will guide you on how to check your plant and equipment conditions, how to use the SuccessTree and trend charts, and how to analyze alarms.

This course will take place over two (2) days. On the first day, you will learn the basic functions of HanPHI client programs. On the second day, you will practice utilizing the functions covered during the previous day.

### WHO SHOULD TAKE THIS COURSE?

This course is for novice HanPHI users and is open to anyone who wants to have a core working knowledge of HanPHI client programs.

### PREREQUISITES

In this course, you will learn the basics of HanPHI. This course will not cover subjects related to advanced computer skills.

### COURSE TOPICS/CONTENTS
