

## HanPrism Visualization Application Course

---

### COURSE DESCRIPTION

The objective of this course is to learn how to use HanPrism visualization applications for visualizing and sharing your process data. This course will guide you on how to access and visualize your plant data along with enterprise data. The course will also guide you on how to create and share web-based and desktop-based dashboards.

This course will take place over two (2) days. You will learn the functions of HanPrism visualization applications. You will also have practice sessions to actually utilize the functions.

### WHO SHOULD TAKE THIS COURSE?

This course is designed for novice HanPrism users and is open to anyone who wants to have core working knowledge of HanPrism visualization applications.

### PREREQUISITES

In this course, you will learn various aspects of HanPrism visualization applications. This course will not cover subjects related to HanPrism desktop applications and computer skills. For learning and utilizing the controls provided by HanAra Insight and HanAra Dashboard, you should understand the basics of HanPrism Spotlight.

### COURSE TOPICS / CONTENTS

The course begins with an introduction to HanPrism and HanPrism visualization applications. You will learn how to install and use HanPrism visualization applications.

- Installing HanPrism visualization applications
- Setting up HanPrism visualization applications
- Understanding HanAra Insight and HanAra Dashboard
- Accessing the real-time and historical HanPrism data through HanAra Insight
- Understanding HanAra Insight and HanAra Dashboard controls
- Using HanAra Insight embedded charts
- Creating HanAra Insight and Desktop Dashboard
